FIG. 8

FIG. 9A is a side view of a rectangular device 10 with two curved, flared protrusions 14 on its left and right sides. FIG. 9B is a top view of the device 10, showing a rectangular body with a row of eight small rectangular protrusions 14 along the top edge and another row of eight along the bottom edge. FIG. 9C is a front view of the device 10, showing a rectangular body with a row of eight vertical rectangular protrusions 14 along the bottom edge. FIG. 9D is a perspective view of the device 10, showing its internal structure. It features three circular components 20 arranged horizontally. Each component 20 is connected to a top horizontal rail 22 and a bottom horizontal rail 22 by a vertical line. The device 10 has a row of eight small rectangular protrusions 14 along the top edge and another row of eight along the bottom edge.
